

CARROT HYBRID KXPC-200
A Jumbo/Cello type variety

KXPC-200 is a long Jumbo/Cello variety. It can be grown under stress conditions. It produces slightly tapered roots 11 to 19 inches long and 1 ½ to 1 ¾ inches in diameter.

This variety produces dark green and very strong tops 20 to 22 inches tall. Both exterior and interior color is dark orange. Good flavor.

KXPC-200 is resistant to premature bolting. It is also tolerant to *Alternaria dauci* and *Cercospora carotae*.

Markets: All Jumbo/Cello markets in USA and Canada.
Could be used as a slicer in processing industry.
