

CARROT HYBRID KXPC-202
A Cello/Jumbo variety

KXPC-202 is a very smooth Cello/Jumbo variety. It produces slightly tapered roots that are 9 to 10 inches long and about 1 ¾ inches in diameter. In full maturity roots are well filled to the tip. Exterior and interior color is dark orange.

This variety produces very strong and vigorous tops that are about 19 to 22 inches tall.

KXPC-202 has been selected against premature bolting.

KXPC-202 has shown under field trials good tolerance to *Alternaria dauci* and *Cercospora carotae*.

Markets: All Cello/Jumbo markets in USA and in Canada.
Good for bunching carrot markets.
