

CARROT HYBRID KXPC-107

A very long Cut & Peel Variety

KXPC-107 was specifically developed for Cut and Peel market in USA and for other Countries that are interested in manufacturing baby carrots.

This unique variety produces carrots with strong tops and good attachment that are about 20 to 22 inches tall. The roots are narrow, 10 to 13 inches long, even under high population, and about $\frac{1}{2}$ to $\frac{3}{4}$ inches in diameter.

Exterior and interior color is dark orange and core is very small being almost invisible. Roots are very smooth even under wet conditions and has shown sweet and mild flavor.

Under field conditions the variety has shown good tolerance to *Powdery mildew*.

Markets: All Cut and Peel carrot markets in the World: USA, Canada, Australia, China, South Africa and Europe.
