

CARROT HYBRID KXPC-038
A Kuroda type Carrot

This variety produces very strong and vigorous tops that are 20-22 inches tall and dark green in color.

The roots are dark orange in color, slightly tapered to the tip and are about 7 to 8 inches long and about 2 to 2 ½ inches in diameter.

KXPC-038 has shown good tolerance to premature bolting and some tolerance to *Alternaria dauci*.

Markets: All areas where Kuroda type of carrot is grown
